NOTICE TO CONTRIBUTORS

Entomologia experimentalis et applicata was started in 1958. It covers the field of exper mental Biology and Ecology, both pure and applied, of insects and other land arthropod In course of years experimental research on insects expanded greatly due to the search fo possibilities of integrated insect control stimulated also by a growing consciousness tha chemical control may spoil our environment.

As new fields of research were opened up and new approaches started, the importance c the contents of this journal was enlarged considerably. Also persons which are not specificall interested in entomology as such but are convinced that entomological research is compulsar to improve our environmental situation, of which careful management of insect pests is a par should see *Entomologia experimentalis et applicata.*

Manuscripts for publication

Contributors are requested to send their manuscripts to the Editor-in-Chief Dr. P. A. va der Laan, Marterlaan 18, Wageningen, the Netherlands or to the Editor, residing in thei country: Dr. R. D. Hughes, C.S.I.R.O., Div. of Entomology, Canberra A.C.T., Australia Prof. T. E. Mittler and Prof. K. Hagen, Dept. of Entomology, Berkeley, Calif., U.S.A.; Pro P. Pesson, Laboratoire de Zoologie de l'I.N.R.A., Rue Claude Bernard, Paris Ve, France Dr. T. Lewis, Department of Entomology, Rothamsted Experimental Station, Harpende Herts., England; Prof. V. Moericke, Institut für Pflanzenkrankheiten, Nussallee 9, Bonn Deutschland; Prof. F. J. Oppenoorth, Laboratory of Insecticide Research, Wageningen, an Prof. L. M. Schoonhoven, Laboratory of Entomology, Wageningen, the Netherlands.

It is understood that manuscripts presented for publication in ENT. EXP. & APPL. will not b offered to any other journal for prior or simultaneous publication. The languages of publicatio in ENT. EXP. & APPL. are English, French and German. *Two copies* of the text should b submitted.

Authors are requested to add a short Abstract to their paper, written in the same languag as their paper. The paper should also be accompanied by a more extensive Summary, writte in one of the other two accepted languages of the journal. The Editors offer their assistanc to authors to whom the preparation of the translation may cause problems.

In view of the demand for space authors are requested to drastically condense thei manuscripts, not only as far as the text is concerned but also regarding the figures and table The editors reserve the right to adjust style to certain standards of uniformity.

Generally the size of the manuscripts should not exceed 16 printed pages; papers of greate length can only be considered if the author is prepared to pay the additional printing cost

The metric system should be used for all scientific and laboratory data, such as ml (*no* ml. or mls), cm, g, cm/sec (*not* cm per sec), metre candles etc. Temperatures should be give in the Centigrade scale; e.g. 30° (*not* 30° C).

The names of authors used in the text should not be underlined; scientific names shoul be underlined. Citation of authorities: see Rules in *Ent. exp. & appl.* **9** (1966): 297.

Manuscripts which are not accepted for publication are returned on request only and b surface mail.

References

References to periodicals must be listed alphabetically according to the Harvard System a the end of the article as follows: name and initial(s) of author, year of publication in bracket exact title of paper, contracted title of periodical in italics as in *World List of Scientifi Periodicals* 4th Edn. (1963-65), volume number in arabic figures double underlined; initial an final page numbers of article. In the Harvard System, the titles of books are in italics followe by the town and publisher.

Illustrations

Photocopies of the illustrations should be added to the manuscripts, legends on a separat sheet. The photocopies should be made so that the figures are the exact size required on th final printed page. If the paper is accepted for publication, these copies will go forward wit the manuscript to serve as a guide to the printer. *Send no original figures,* but wait until notic has been given that the paper has been accepted. The original figures will be returned by th publisher on timely request only.

Reprints

Twenty-five reprints of each paper are provided free. More reprints may be ordered at cos

Page Charges

The offices of the authors will be charged for payment of D.Fl. 100.- per printed pag and D.Fl. 200.- per plate, whenever applicable. Exemption may be given in case proof given that funds are not available or payment is otherwise impossible. See also the Notic in Vol. 16 (1973) : 140.

NEDERLANDSE ENTOMOLOGISCHE VERENIGING

Publications of the Society

Subscription may be obtained from booksellers or direct from the Librarian, Plantage Middenlaan 64, Amsterdam 1004.

TIJDSCHRIFT VOOR ENTOMOLOGIE

Editing Board: A. Diakonoff, P. van Helsdingen, C. A. W. Jeekel, R. de Jong, J. Krikken, M. A. Lieftinck. Address: Rijksmuseum van Natuurlijke Historie, Raamsteeg 2, Leiden. The Journal serves the publication of papers on Insecta, Myriapoda and Arachnoidea. It appears in separate issues, forming an annual volume of 350—400 pages. Subscription rate: D.Fl. 100.— per volume.

MONOGRAFIEËN VAN DE NEDERLANDSE ENTOMOLOGISCHE VERENIGING

Editing Board and address as for *Tijdschrift voor Entomologie*. The monographs are intended for the publication of larger entomological papers on a single subject and will appear irregularly. The following Monographs have been published:

Hors série: F. T. Valck Lucassen et al., 1961. — Monographie du genre *Lomaptera* Gory & Percheron (Coleoptera, Cetoniidae), 299 pp., 739 figs., 2 pl. map. D.Fl. 60.—.

No. 1. A. J. Besseling, 1964. — De Nederlandse Watermijten (Hydrachnellae Latreille, 1802) (The Hydrachnellae of the Netherlands), 199 pp., 333 figs., D.Fl. 30.—.

No. 2. P. J. Brakman, 1966. — Catalogus van Coleoptera uit Nederland en het omliggende gebied (List of the Coleoptera of the Netherlands and adjacent region), 219 pp., map. D.Fl. 45.—.

No. 3. G. A. Graaf Bentinck & A. Diakonoff, 1968. — De Nederlandse Bladrollers (Tortricidae)/Lepidoptera/, 200 pp., 99 plates. D.Fl. 70.—.

No. 4. F. Willemse, 1968. — Preliminary revision of the genera *Stenocatantops* Dirsh & Uvarov and *Xenocatantops* Dirsh & Uvarov (Orthoptera, Acridiidae, Catantopinae), 77 pp., 1 map, 6 pl. D.Fl. 25.—.

No. 5. C. A. W. Jeekel, 1970. — Nomenclator familiarum et generum Diplopodorum, 412 pp. D.Fl. 100.—.

No. 6. J. G. Betrem, 1971. — The African Campsomerinae (Hymenoptera, Scoliidae), 325 pp. D.Fl. 120.—.

No. 7. W. N. Ellis & P. F. Bellinger, 1973. — An annotated list of the generic names of Collembola (Insecta) and their type species, 74 pp. D.Fl. 40.—.

ENTOMOLOGISCHE BERICHTEN

The Journal serves the publication of short papers, faunistic notes, reports of the meetings etc. It appears monthly in issues of 16—24 pages, forming a volume annually.
Editor: B. J. Lempke, Address: Plantage Middenlaan 64, Amsterdam 1004. Subscription rate: D.Fl. 70.— per volume.

TRICHOPTERORUM CATALOGUS by F. C. J. FISCHER

The catalogue contains all species of recent and fossil Trichoptera of the world with their synonymy and distribution. The complete Catalogue consists of 15 parts and appears in 1973. Price D.Fl. 833.—; printed one-sided D.Fl. 867,50.

ENTOMOLOGIA EXPERIMENTALIS ET APPLICATA

is issued six times per year in two volumes of three issues

Subscription price — Dutch Fl. 220.00 — (postage included)

Subscriptions can be entered through booksellers or directly with
